

# App Branding Image Guide

Below is a guide to size your images for your app. **Not a graphic designer?** Please feel free to send your raw images to [design@mobilityre.com](mailto:design@mobilityre.com) if you don't want to hassle with it. We will optimize them and get them back to you ASAP!

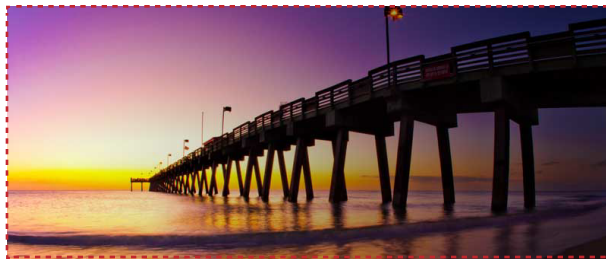

## Logo and Background

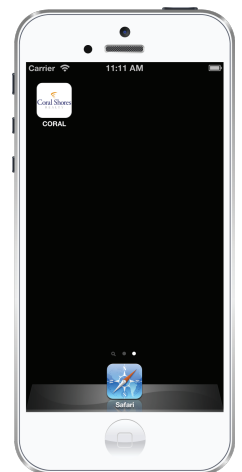

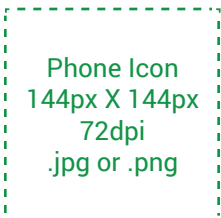

### IMPORTANT!

*Sizes must be exact or your images may be distorted!*

## Example:

## Icon:

## Personal Image or Company Image (Profile Image):

400px wide, 72dpi .jpg or .png

For your profile image there is a little more wiggle room. It just needs to have a width of 400px (the height can vary), and be 72dpi .jpg or .png
